Mary Beth,

We would need this before drafting the programmatic agreement, which I would like to start once we get formal comments on the coordination from the State Historic Preservation Office. We expect those comments before the end of October, so before the end of October for the letter regarding the lead federal agency would be ideal.

Thank you,

Megan

Thanks Megan.

Is there a deadline for submitting this letter to SHPO? Mark and I need to discuss what it will mean for USEPA to be the lead agency and retain all responsibilities for a multiple phase project with different project leads. We may reach out to you in the near future if we have questions or need more info.

Subject: Text for lead federal agency letter

Mary Beth and Mark,

Attached here is a word document with text which should be helpful in creating the letter acknowledging that USEPA is the lead federal agency for the Gorge Dam Removal project. The State Historic Preservation Office has asked us to provide such a letter to document that USEPA is the lead federal agency and retains all of the responsibilities related to

that status (such as effect determinations), and that USEPA authorizes Summit Metro Parks to develop the cultural resources coordination for this project.

Let me know if you have any comments or questions!

Thank you,

Megan
